

Team Alberta North Brand Guidelines

Arctic Winter Games

JUNE 2023 | V.2

Alberta

The purpose of this document

The Team Alberta North brand is the property of the Government of Alberta. To ensure the brand is consistent in all applications, from uniforms to media and printed materials, rigid standards have been put in place. Under no circumstances can the brand, or its elements be modified in any way.

If you have questions about these standards or additional branded items not included in this guide, please contact:

White

Logo

Horizontal logo option

The horizontal logo option is only to be used if the vertical option does not fit with the design or intended application. Any deviation from either version must be approved by the Alberta Government Identity team.

An electronic version of a logo sheet is available upon request.

Logo

Icon

The A-bolt icon employs a flat construction that makes it easily readable and usable across all mediums. The A has a mountainous feel representative of the new heights our athletes will reach as they pursue personal excellence. It also carries the feel of coniferous tree tops which are in abundance across Alberta. The lightning bolt element of the A connects to Alberta's renowned thunderstorms and the excitement that is in the air—Alberta's ubiquitous energy and attitude.

Minimum size

The icon must always be larger than 0.75" in width as this is the smallest size at which it is properly visible. The A-bolt logo must be used in isolation when a logo less than .75" wide is required. Alternatively, the A-bolt icon can be used in isolation at any size, if desired.

Minimum size 0.75" wide

Logo

Wordmark

The font is a variation of the Government of Alberta brand font, Helvetica Neue. The A's, R's and M's have been customized to match the angle of the A-bolt icon. The crossbar in each A has been eliminated to give it an openness that matches the A-bolt icon. Much like the spirit of Alberta, they are maverick, independent and irreverent. By themselves, they are the tips of arrows pointing up, tree tops and mountain peaks.

Logo

Rules and uses

The Team Alberta North identity (including all of its primary, secondary and tertiary elements) **MUST NOT** be altered or distorted in any way.

DO NOT recolour, outline, or add effects to logos

DO NOT rotate, squish, or stretch logos

DO NOT rearrange, overlap, or re-size logo elements

Logo

Logo safe zone

To make sure the Team Alberta North logo remains readable, a safe zone on all sides of the logo must be left clear of all other elements. This area is equal to the height of TEAM ALBERTA. When using the icon in isolation, the area is equal to half its height.

x = height of TEAM ALBERTA

x = height of a single character

x = height of half the icon

02

Typography

Typography

Helvetica Neue Lt Std

Helvetica Neue is the primary typeface for all Government of Alberta, and related organization, materials. It was chosen for its clarity, legibility and versatility. A variety of weights are available, but keep to the type treatments shown here.

Alternate typeface

Primarily used in Microsoft Office documents as a common system default font.

Colour

Colour

Team Alberta North's primary colours are royal blue and white as specified by the Arctic International Committee.

It is important that Team Alberta North has a distinct appearance at the games. For this reason, GoA Sky Light Blue can be used (sparingly) as an additional accent colour.

Palette

Whenever possible, use the Pantone colour codes for best matching. RGB and HEX codes are used for digital and web applications, while the CMYK system is applied to printed collateral when Pantone system cannot be used i.e. using an office printer.

ROYAL BLUE
PMS 286
CMYK 100C/68M/0Y/37K
RGB 13R / 54G / 146B

CMYK 51C/0M/9Y/0K
RGB 95R / 206G / 234B
HEX# 5FCFEEA
ACCENT

Colour

Colour use

The Team Alberta North logo should be displayed in royal blue on a white background, or in white on a royal blue background. Use an all-white logo for other dark backgrounds when the primary royal blue cannot be used for contrast, readability, or cost reasons.

Royal blue should be used as a main colour, if possible, whenever a background colour is desired.

04

Brand applications

Applying the brand

Uniforms

Royal blue should be the base colour of all uniforms. When a sport requires two versions (dark and light), the light uniform must be white.

Using the Sky Light Blue accent colour

If you choose to use Sky Light Blue, it must be used sparingly, as an accent—no more than 20% of the garment surface.

Jersey number style

Numbers must be either royal blue or white and must be either in the brand typeface (Helvetica Neue LT Std Condensed 87), or an approved alternate typeface (see page 11).

Applying the brand

Official Team Alberta North roundel

Some uniforms present challenges to applying the TEAM ALBERTA NORTH logo in its standard form. In this case, an official Team Alberta North roundel can be applied as an embroidered badge.

Use on white

Use on royal blue

Applying the brand

Team Alberta North apparel

Non-field-of-play garments such as T-shirts, tanks and hoodies do not have to use royal blue as a base colour, but must follow all Team Alberta North guidelines for logo placement, typography and colour.
